TRUSTED LEGACY.

NATIONAL STRENGTH.

## RVE Joins Ardurra as Northeast Engineering Presence

Remington & Vernick Engineers (RVE) takes a meaningful step in our evolution: we are excited to share that we have joined Ardurra Group, Inc (Ardurra).

Ardurra is known for delivering complex engineering and design services to public and private entities across the United States.

Founded in 1901, RVE is one of the oldest established engineering consulting firms in the United States, with more than 500 professionals across 14 offices. The firm provides design, planning, and construction management/inspection services across water, municipal, transportation, and other end-markets.

“We’re truly honored to have a firm with this kind of history and impact join Ardurra,” said Ernesto Aguilar, PE, President and CEO. “RVE has served its communities for more than a century, and we’re excited for what we will build together with this powerful new platform in the Northeast. RVE has built an exceptional team. We look forward to welcoming them into Ardurra’s people-first culture and continuing to grow together.”

“Joining forces with Ardurra is an opportunity for RVE to build upon our strong reputation of quality service to our clients, with enhanced expertise and innovative tools,” said Leonard Faiola, PE, PP, CME, now the Strategic Growth Director of the Northeast Region. “We’re proud of RVE’s legacy and, as we celebrate our 125th anniversary this year, we are excited about this next step in our evolution.”

RVE will continue to operate from its primary office in Cherry Hill, New Jersey, along with 13 additional offices across New Jersey, Pennsylvania, Delaware, Maryland, and North Carolina. Ardurra now comprises a combined team of approximately 2,600 employees across more than 120 offices nationwide.
