

Founded in 1989, TPD is a rapidly expanding ENR Top 400 Design Firm with offices across the eastern U.S., including Pennsylvania, Delaware, New Jersey, and New York. TPD advances infrastructure projects through relationships and teamwork to strengthen our communities. We work toward this mission by providing engineering services to a variety of public and private sector clients.

MOVING FORWARD TOGETHER®

SERVICES WE PROVIDE

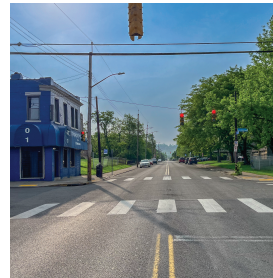

-  Traffic Signals & ITS
-  Highway Design
-  Transportation Planning & Permitting
-  Bridge Design & Inspection
-  CM/CI
-  Multimodal Design
-  Municipal Services
-  Utility Engineering
-  Environmental
-  Expert Witness

FEATURED PROJECTS

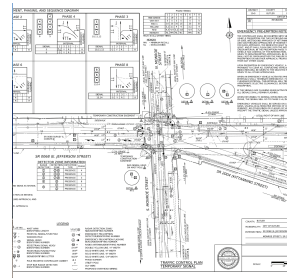

Hazelwood Green to Carrie Furnace Trail Feasibility Study City of Pittsburgh & Swissvale Borough, PA

TPD prepared a feasibility study and preliminary design for a four-mile trail linking Hazelwood Green and Carrie Furnace along Pittsburgh's riverfront. The project evaluated multiple alignments, including two new structures, coordinated with stakeholders and CSX, developed preliminary plans, and prepared cost estimates. Final design begins this fall.

Frankstown Avenue Signals City of Pittsburgh, PA

TPD partnered with the City of Pittsburgh to improve safety and mobility along the Frankstown Avenue Corridor, focusing on pedestrian enhancements. Services included evaluating signal replacements, crossing upgrades, traffic calming measures, accessibility improvements, and preparing preliminary engineering plans for key intersection and corridor improvements. Final design begins this fall.

Traffic Open End PennDOT District 10-0

Under PennDOT Open-End Agreement E05473, TPD completed seven work orders involving intersection conflict warning systems, signal retiming in Punxsutawney Borough, congested corridor planning studies in Clarion and Brookville, and final design for the SR 0068 Butler signal improvements project. TPD was recently renewed for an additional five years under successor agreement E05894.

As TPD's transportation practice continues to grow across Western Pennsylvania, we have expanded our local team and opened a second office in downtown Pittsburgh to better serve our clients and communities.
