

# Mead & Hunt Traffic Services

## A National, Full-Service Engineering and Architectural Firm

Mead & Hunt is an employee-owned corporation with over 1,500 employees. Our firm has been in operation since 1900 and has grown to more than 50 offices, allowing us to provide services to clients nationwide. Mead & Hunt is ranked #82 in Engineering News Record's National Top 500 firms list and ranked #38 on their Transportation list. We have also been named one of the Best Places to Work by CE News.

Mead & Hunt is a recognized expert in transportation engineering and construction. We have successfully undertaken numerous design, study, and construction projects throughout the area and nationwide. Whether rural or urban, our safe, cost-effective, and sustainable projects are designed to last. From start to finish, we are here to work with you to find innovative solutions that make sense.

### DDOT DCKA 2016-C-0052 City Wide Traffic Signal - Washington, DC

Mead & Hunt has led three consecutive contracts for the optimization of all 1,700+ traffic signals in DC. Our team has assessed and optimized every signal in the city multiple times over the last 10 years to implement various multimodal treatments that make DC's intersections friendlier for pedestrians and cyclists. Mead & Hunt has provided continuous innovation and implemented new strategies, including LPIs, Automatic Walk Signals, Age-Friendly signal timings, reduced cycle lengths, bicyclist progression changes, single-stage crossings, and late-night timing. Our multi-award-winning work has helped progress DDOT's objectives to reduce Single-Occupancy-Vehicle (SOV) trips, encourage multimodal choices, and reach Vision Zero. Mead & Hunt has provided the following services to DDOT:

- Traffic analysis and modeling
- Traffic signal design and feasibility analysis
- Traffic operations analysis to support planning and design
- Transportation planning
- Intersection design
- Signing and pavement marking
- Crash analysis and safety studies/assessment
- Corridor studies
- Preparation of Transportation Management Plans (TMP)
- Traffic impact analysis

### ITE: International Transportation Achievement Award in Traffic Engineering

January 01, 2021

## Our Culture

**At Mead & Hunt, we are empowered to take care of people, do the right thing, and do what makes sense.** Our purpose and values all stem from these overarching goals. In our external work, this means working to provide projects that benefit those who use them.

These values also inform how we treat each other internally and the employee experience we create.

We strive to create a working environment that promotes balance in life and work, provides growth opportunities, and allows our employees to build the career they want. This means providing strong benefits, education, and training programs; empowering our employee resource groups; and cultivating a company culture that is welcoming, encouraging, and safe for all.
