

WALLACE MONTGOMERY

At-a-Glance

Founded 1975

Wallace Montgomery has been serving clients in the Mid-Atlantic region for 50 years. Comprised of professional engineers, planners, environmental scientists, surveyors, technicians, construction inspectors, and support personnel, our company has a diverse portfolio of projects involving highways, innovative intersections and interchanges, traffic planning and design (signals, signing and pavement marking, lighting and maintenance, and protection of traffic).

Our mission is to provide quality planning and engineering solutions that meet the needs of our clients and help build sustainable, resilient projects within our communities. Our goals are to make our clients and their constituents more successful through the planning, design and construction of important infrastructure.

Our Expertise

Above and beyond is just our starting place. With each project, our team members prove that we are devoted to delivering the highest quality and most innovative services to every client.

Our Culture

We recognize that our successes come from our professionals throughout the firm. We are dedicated to the clients and communities that we serve.

We look for talented and dedicated professionals who are passionate about keeping our roads safe for all users and ensuring that our communities are sustainable for years to come.
